

# FAST CASH IS NOT THE ANSWER

It is easy to get caught up in the "Fast Cash" payday loans that are easily available these days. However, many do not stop to think of the extremely high interest rates most of these companies charge. Some interest rates are over 300% making it virtually impossible for most people to keep up with the payments. The Credit Union has a loan designed for those with less than perfect credit at a much lower and manageable interest rate.
