## Only YOU Can Repair Your Credit

Are you trying to boost your credit score or repair your credit? Often members think that paying someone to "FIX" their credit will help. This is a false promise that can also be a costly mistake. **NO ONE but you can repair your credit.**

You can pull your credit report for **FREE** from the three major credit reporting agencies once every 12 months from [www.annualcreditreport.com](http://www.annualcreditreport.com). Pull your free credit report and review all the activity for accuracy. Repairing your credit and score takes time, timely payments, and proper use of your credit accounts. If you have questions, we can help by going over your report with you and discussing strategies to improve your history and score.
